

सत्यं वद धर्मं चर

SPEAK THE TRUTH, BE RIGHTEOUS

लोकाः समस्ताः सुखिनो भवन्तु

PEACE AND WELFARE TO ALL EVERYWHERE

AN APPEAL

Namasthe Dhanyathman, Blessed Soul!

Thasmai Charitable Trust, a registered non-profit organization (Reg. No. 18/2019], established on 06/02/2019 under income Tax Act 1961, is dedicated to spiritual research, meditation, and universal well-being.

The objectives of Thasmai Charitable Trust are:

1. Develop a Spiritual Research and Meditation Centre – Explore and study the eternal truths of the spiritual realm for the well-being of the world. Also, provide everyone with an opportunity to experience all the 14 dimensions of this universe.

2. Bharath Intelligence (BI) – To provide permanent solutions to all our problems by guiding individuals to address their root causes through the principles of Prapancha Dharma (universal laws).
3. Promote Universal Harmony & Well-being – Illuminate a world lost in ignorance, with the light of spiritual knowledge to create peace and harmony. ‘Satyam Vada, Dharmam Chara’ – the key to fulfilling our vision of ‘Lokah Samastah Sukhino Bhavantu’, where ‘Lokah’ means all living beings and all of existence in the universe.

Thasmai's Journey

THASMAI has developed a unique meditation technique called **SMS Meditation**, a rocket science for self-realization, simplified by THASMAI GURUJI in 2019. This method effectively enhances emotional, physical and financial stability and family relationships. Over 44,000 families have already practiced and benefited from SMS Meditation, gaining widespread acceptance in the south of India. This practice is open to anyone, anywhere in the world, with Guru's guidance and blessings, without age restrictions. Just 45 minutes of meditation in a chair can positively transform an individual's life in all aspects by aligning individuals with universal law. Astral Travel, Astral Treatment, and Astral Teachings are key features of this meditation that anyone can experience. This is the only technique available today to erase our COMPLICATED MEMORIES, the root cause of all our problems.

The Trust has initiated a **research** wing to validate its findings and publish them in reputed spiritual and science journals, bridging the gap between science and spirituality.

Thasmai Guruji is an enlightened person, on the spiritual path for a decade. A former film maker, during his spiritual quest, he experienced fourteen subtle dimensions in the universe and several universal secrets unknown to the modern world. He has accepted as his ultimate Guru and ideal Sree Narayana Guru(1856 -1928) from Kerala. Guruji's spouse Guru Ma, a former software professional, is deeply involved in the mission with Guruji. They have a son and a daughter.

Why We Seek CSR Support?

The trust has great pleasure to announce the commencement of its next phase of activities, for the benefit of the world at large. We invite the wholehearted support and active participation of all well-meaning individuals and corporate bodies to make this a success and help achieve the following near-future goals:

1. Research Activities – Conducting studies on meditation's impact and publishing findings of spiritual significance.
2. Education Institute – Establish an ancient Gurukulam model education system that combines spiritual education with material learning (Astral learning). Focusing on nurturing a generation rooted in truth and righteousness, emphasizing selflessness, compassion, patience and sacrifice over unhealthy rivalry or competition.
3. Humanitarian Projects – Initiatives for the well-being of society and global peace. With focus on urban poverty mitigation, educating and skilling the underprivileged young, empowering women suffering in urban squalor.
4. Establishment of an Ashram to continue a unique meditation method.
5. Provide basic accommodation for inmates, guests and trainees.

Long term Goals

1. Acquisition of a suitable acreage of fertile land to an extent of 100 acres for sustainable community development.
2. Establishment and development of holistic agricultural farming.
3. Develop an extensive free-to-roam Goshala to take care of cattle during and after their yielding years.
4. Upliftment of local communities through Integrated Communal Education and Arsha Gurukulam (online & offline training).

5. Gurugramam(s) – Socio-Spiritual village(s) promoting ethical and sustainable living. If people are trained to live according to universal laws, there will be no need to teach anything new. Crime and poverty will be eradicated, leading to well-being in all areas – economic, mental, physical, and familial. Projects like Gurugramam are essential to spread this truth.

Corporate bodies, both in the public sector and private and worthy individuals may come forward to contribute generous financial assistance as donations and also help us locate this project by offering land.

We have made our humble beginnings in a rented premise in Bengaluru, Karnataka, India; we wish to continue in the same general ecosphere blessed by a healthy climate, perfect for holistic farming and spiritual practices.

Thank you for your time and consideration. We look forward to your support in creating a healthier, harmonious world. Please feel free to connect with us to enquire more of the project's details.

Our birth should benefit ourselves, family, society, and the universe.
